About White Stone

White Stone Factory Company is a specialized trading and distribution company focused on supplying a comprehensive range of industrial chemicals, raw materials, solvents and specialty chemical products to various industries.

We work closely with a well-established network of international manufacturers and suppliers, representing and distributing selected global brands and products across our markets. This network, together with strong relationships with customers and industrial partners, lets us deliver reliable sourcing solutions and consistent product availability.

At White Stone, we are committed to providing high-quality products, competitive commercial solutions and professional customer service, while building long-term partnerships based on trust, reliability and mutual growth.

Mission, Vision & Values

Our Mission

To build long-term business relationships based on quality, trust and mutual success.

Our Vision

To be the region's leading and most trusted distributor of industrial chemicals and raw materials.

Quality

Every product meets international standards and is backed by COA and MSDS.

Reliability

Consistent availability and on-time delivery you can plan around.

Integrity

Transparent pricing and honest technical advice.

Partnership

Long-term relationships that grow with our customers.

Customer Focus

Solutions shaped around each customer's process and volume.

Market Knowledge

Strong industry connections across the region.

Why White Stone

Quality Assured

Products sourced from certified international manufacturers that meet international quality standards.

Reliable Supply

A strong supplier network that keeps products in stock and deliveries on time.

Competitive Pricing

Commercial solutions that give real value, from a single drum to full containers.

Expert Support

Technical and commercial guidance from people who know the chemical market.

Top Products

Caustic Soda (NaOH)
Flakes & liquid

Methanol
Industrial solvent

Sulphuric Acid 98%
H2SO4

MEG
Mono Ethylene Glycol

White Spirit
Paint solvent

Hydrochloric Acid 33%
HCl

Calcium Hypochlorite
65% & 70%

Base Oil
Lubricant base stock

Styrene Monomer
Resin monomer

Acetic Acid
Glacial

Paraffin Oil
White oil

Palm Fatty Acid
Soap & detergents

Sulphur
Granules & powder

Industries & Product Catalogue

Some materials appear in more than one category because they have several industrial uses.

Detergents & Cleaning Products

Raw materials for liquid and powder detergents, soaps, dishwashing liquids, shampoos and household and institutional cleaners. We supply surfactants, alkalis, builders, chelating agents and disinfectants to detergent manufacturers across the Arab region and worldwide.

Caustic Soda (NaOH) · SLES 70% · Sodium Carbonate (Soda Ash) · Sodium Tripolyphosphate (STPP) · SHMP (Sodium Hexametaphosphate) · Sodium Bicarbonate · DEA – Diethanolamine · MEA – Mono Ethanol Amine · TEA – Triethanolamine · Glycerine · Citric Acid · Benzalkonium Chloride · Antifoaming Agent · Butyl Glycol Ether · Hydrogen Peroxide · Calcium Hypochlorite · Fatty Acid · Palm Fatty Acid

View online →

Water Treatment & Swimming Pools

Chemicals for disinfection, coagulation, purification and pH control in drinking water, wastewater, boilers, cooling towers and swimming pools.

Calcium Hypochlorite 65% / 70% · TCCA (Trichloroisocyanuric Acid) · Ferric Chloride · HCl (Hydrochloric Acid 33%) · Sulphuric Acid 98% (H2SO4) · Caustic Soda (NaOH) · Sodium Carbonate (Soda Ash) · Calcium Hydroxide · Hydrogen Peroxide · SMBS (Sodium Meta Bisulphite) · SHMP (Sodium Hexametaphosphate) · Carbohydrazide · Glutaraldehyde · Benzalkonium Chloride · Aluminum Hydroxide

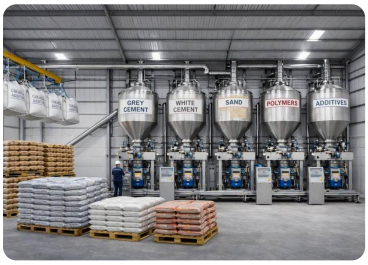
View online →

Paints, Coatings & Inks

Solvents, pigments, monomers and additives for decorative and industrial paints, varnishes, adhesives and printing inks.

Titanium Dioxide (TiO2) | Pigments (Red, Yellow, Green) | Carbon Black | White Spirit | Toluene | Xylene | Solvent Naphtha | Acetone | Ethyl Acetate | Butanol | Butyl Glycol Ether | Iso Propyl Alcohol (IPA) | Butyl Acrylate | Acrylic Acid (GAA) | Styrene Monomer | 2-Ethyl Hexanol (2EH) | Antifoaming Agent | Castor Oil

View online →



Construction & Concrete Admixtures

Raw materials for concrete admixtures and superplasticizers, set accelerators and retarders, plasters, tile adhesives and dry-mix mortars.

Sulfonated Naphthalene Formaldehyde (SNF) | Sodium Lignosulphonate | Calcium Lignosulphonate | Sodium Gluconate | Calcium Formate | Calcium Nitrate | Calcium Nitrite | Calcium Chloride | HPMC | GGBS | Bentonite | TEA – Triethanolamine | Antifoaming Agent | Pigments (Red, Yellow, Green)

View online →

Plastics, Resins, Polymers & Foam

Monomers, glycols and intermediates for unsaturated polyester, polyurethane foam, phenolic and acrylic resins and plastic processing.

Styrene Monomer | Maleic Anhydride | MDI – Methylene Diphenyl Diisocyanate | MEG (Mono Ethylene Glycol) | DEG – Diethylene Glycol | TEG – Triethylene Glycol | PEG – Polyethylene Glycol | Phenol | Formaldehyde | Paraformaldehyde | Acrylic Acid (GAA) | Butyl Acrylate | Methylene Chloride | Titanium Dioxide (TiO2) | Carbon Black

View online →

Food, Beverage & Animal Feed

Food-grade acids, preservatives, leavening agents and mineral additives for food processing, beverages and animal feed.

Citric Acid | Ascorbic Acid | Lactic Acid | Acetic Acid | Sodium Bicarbonate | Mono Calcium Phosphate (MCP) | Di Calcium Phosphate (DCP) | Calcium Chloride | Glycerine | Molasses | SMBS (Sodium Meta Bisulphite) | Ethanol

View online →

Agriculture & Fertilizers

Inputs for fertilizers, soil conditioners, micronutrients and crop-protection formulations.

Calcium Nitrate | Ammonium Chloride | Boric Acid | Sulphuric Acid 98% (H2SO4) | Mono Calcium Phosphate (MCP) | Molasses | Ammonia Solution | Normal Hexane | Xylene | Solvent Naphtha | Sulphur

View online →

Pharmaceuticals, Cosmetics & Personal Care

Materials for creams, lotions, hand sanitizers, shampoos, antiseptics and pharmaceutical formulations.

Glycerine | Paraffin Oil (White Oil) | Vaseline (Petroleum Jelly) | PEG 200 / 400 | Ethanol | Iso Propyl Alcohol (IPA) | Iodine | Boric Acid | Citric Acid | Lactic Acid | Ascorbic Acid | Benzalkonium Chloride | Castor Oil | SLES 70% | Hydrogen Peroxide

View online →

Lubricants, Oil & Gas

Base stocks and chemicals for lubricants, greases, antifreeze, gas dehydration and oilfield operations.

Base Oil | Paraffin Oil (White Oil) | Vaseline (Petroleum Jelly) | MEG (Mono Ethylene Glycol) | DEG – Diethylene Glycol | TEG – Triethylene Glycol | Methanol | Glutaraldehyde | Bentonite | Calcium Chloride | Antifoaming Agent

View online →

Textile, Leather & Paper

Chemicals for scouring, bleaching, dyeing, tanning and pulp and paper processing.

Caustic Soda (NaOH) · Hydrogen Peroxide · Acetic Acid · Formaldehyde · Sodium Carbonate (Soda Ash) · Sulphuric Acid 98% (H2SO4) · Zinc Ammonium Chloride · Pigments (Red, Yellow, Green) · Sodium Lignosulphonate

View online →

Industrial Solvents & Basic Chemicals

General-purpose solvents, acids and alkalis used across manufacturing, cleaning, extraction and laboratories.

Methanol · Ethanol · Acetone · Toluene · Xylene · Normal Hexane · Iso Propyl Alcohol (IPA) · Butanol · Ethyl Acetate · Methylene Chloride · White Spirit · Solvent Naphtha · Sulphuric Acid 98% (H2SO4) · HCl (Hydrochloric Acid 33%) · Ammonia Solution · Acetic Acid · Caustic Soda (NaOH) · Sulphur

Quality & Services

Quality Commitment

Products meet international standards, and each shipment comes with its Certificate of Analysis (COA) and Material Safety Data Sheet (MSDS).

Sourcing Solutions

Hard-to-find materials sourced through our global network of manufacturers.

Flexible Packaging

Drums, bags, IBC tanks and bulk supply to match your production volume.

Logistics & Delivery

Fast and dependable delivery across the Arab region and to international destinations.

Technical Support

Help choosing the right grade and specification for each application.

Safety & Compliance

Handling, storage and transport that follow HSE practices.

Documents available

Certificate of Analysis (COA) · Material Safety Data Sheet (MSDS / SDS) · Technical Data Sheet (TDS) · Certificate of Origin on request

Frequently asked questions

What does White Stone Factory Company supply?

White Stone supplies and distributes industrial chemicals, raw materials and solvents, including caustic soda, methanol, sulphuric acid, MEG, white spirit, hydrochloric acid, calcium hypochlorite, base oil, styrene monomer, acetic acid and more than 70 other products.

Where is White Stone located?

White Stone's head office is in Tabarbour, Amman, Jordan, with a branch in Kafr Yuba, Irbid. It serves customers across the Arab region and international markets.

Which industries does White Stone serve?

Detergents and cleaning, water treatment and swimming pools, paints and coatings, construction and concrete admixtures, plastics and resins, food and feed, agriculture and fertilizers, pharmaceuticals and cosmetics, lubricants and oil and gas, textiles, leather and paper.

Do you provide COA and MSDS documents?

Yes. A Certificate of Analysis (COA) and a Material Safety Data Sheet (MSDS) are available for the products we supply.

How can I request a price quotation?

Send the product name, grade and quantity through the quote form, by email to info@whitestone-jo.com, or on WhatsApp at +962 79 244 4866.

Do you export outside Jordan?

Yes. White Stone arranges supply and delivery to customers across the Arab region and worldwide.
